Subject: FW: Pend Oreille--response from Ecology

Dan, Let's discuss communication to the tribe.

Team, I'll arrange a call for us to discuss an agenda, participation, etc.

Dave-

Hey talked with Jim and Kelly about how to step forward on the Pend Oreille. Lets just have a meeting with EPA and the state. Right now we are thinking the meeting should just be Kelly, Jim Bellatty and me. If you want to talk about technical aspects of the modeling then we will include technical folks. Can you guys put together a draft agenda and then we can see if we need to include other folks. Also thinking we do not need to meet with your HQ folks unless you think we do.-Melissa
